Bill Message related to the above service address or charge item :

- The water consumption of your account has considerably increased as compared with that of previous period(s).
- In case it is not a change in your consumption mode causing the considerable increase in consumption, you are advised to take immediate action to find out the reason for the high consumption.
- You may turn off all water taps in your premises and then observe whether the water meter rotates after 30 minutes. If it rotates, it suggests leakage in the internal plumbing and you should immediately employ a licensed plumber for repair works.
- You may also apply to test the accuracy of the meter concerned (i.e. the meter used during the period of increased consumption) at a fee provided that the meter concerned has not yet been replaced.
- Please note that the meter replaced will be disposed of and will not be available for testing.
- If the high consumption is caused by undetected leakage in your inside service and the required conditions are met, you may apply for reduction of the water and sewage charges.
- You may find the details in our website <https://www.wsd.gov.hk> (Home>Customer Services>Manage Account and Water Bills>Water Bills).
